Hi everyone,

I'm looking for the part highlighted in the image below, I believe there are a good amount of them out there...If anyone has one for sale, I'd be interested if it is in very good condition.

I've one from an Impreza you can have, should fit since its just a DIN size.

I'll try it in my car sometime this week to make sure.

I'm still looking for this piece, I'd like it to be from a MR2 instead of a different car. If you don't have this piece, do you have an idea where I could find it?

Cheers!
