

Mechanic needed in Cork

Posted by CKC - 2014/06/13 10:37

Hey guys

I have a 00 MR2 Roadster that is in need of a new engine. I have a new engine sourced, I just need someone to install it. My local Toyota dealer have quoted me €1200 for installation and that seems way too high to me

Can anyone recommend a mechanic or garage in Cork or nearby that would be able to get me a better price?

Thanks!

Would you not get yourself an engine hoist and do it yourself?
There is a load of info online about doing this and it would save you a load of money!

I have mechanic in Mallow if it's any good? Have swapped good few engines.
If you interested pm me and I'll see if he can help.
Price should be 1/2 less than you are quoted.

Thanks guys! I have found a guy in Cork who I'm taking the car to this week so will see what he has to say

I am not mechanical enough to even attempt to do the engine myself, also I run a gym so get very little free time!

How much did it cost in the end?
