Hey man, I presume its the top mounts are gone. Can get them in most motorfactors I think, I got KYB ones in Top Part when I needed them or I think got92tubby has a set of trd ones for sale on here :)

I'm shopping for some myself - contacted Toyota the other day, not heard back.

GTChris.com sell 'uprated' ones for 50 stg a corner.

i think that's roughly what mine were as well.

Would be interested to know what Toyota charge if Damien hears back, just to compare :)

will do. got a quote earlier this week for all four n/a struts (kyb, not bilstein) for £250 inc vat which i thought was very reasonable - hoping for a similar bargain for topmounts :D
