Not familiar with any mr2 breakers in the north but you could always try somewhere like traynors
<http://www.traynors.co.uk/> who stock a bit of everything.

Hi have you tried Beatties ?

Beatties Recycling Ltd.
Quarter Road,Camlough
Newry,Co.Down
BT35 7EY

00442830839535

I have used these guys several times for my MK.1 and my AE82
which is even harder to obtain parts for ! And they always have what I`m
looking for and they are reasonable too,just make sure when you enquire
you ask for the price in either Euro or Sterling,depending on your choice
as they usually quote in Sterling.

Hope this helps mate.

Thanks for the replys, been trying to get ger back on the road, so have been back at it geting her welded
up and going for a repaint. The more im digging at it the more now i seem to need,list is getting long
pritty much in as a full rebuild (engine only getting a service) at this point
