

Wanted - Rev4-5 turbo

Posted by the-band!t - 2016/01/13 16:31

Hi guys,

I'm flirting with the idea of getting back into an mr2 B)
I've sold my skyline and I'm on the fence about what to buy next!

If someone has a mint rev4 or 5 turbo they'd like to sell let me know. Must be rust free and low mileage with some sort of service history!

I know they're hard to come by but maybe one will come up... I'm not interested in a rev1,2 or 3

My budget is £5000 or equivalent euro but that is for a mint example!!

If you have one or know someone with one let them know

Cheers :)

MR2 Turbos are not getting any newer... Good luck with the search - hope you find what you're looking for.

Edit: maybe you would find something good at the auctions? <http://auctions.jdmauctionwatch.com/>

I almost started typing "PM en route" but I can't! Already almost sold the car once, won't be doing it again!

Good luck with the hunt mate

Thanks Quandry I know hard to find even over the water!

You should toy a little more with the idea Steve ;)

Bump

There's a few changes here and there throughout the years. Pretty good writeup on that here:
