

Steering fogs - anyone have them?

Posted by b4ss - 2020/10/07 17:22

Howdy -
long time no chat..
Hope your MR2s are getting some attention in lock down!

I wondering if anyone who has steering fogs could help me out..
Need some photos of inside steering wheel cowl..

I have steering fogs but had to replace my indicators/wipers/steering column, as most of you know..
But I am missing the steering sensor, need to figure out if its possible to add to mine or get a new JDM ones...

A few photos would help..

Thanks,

T

I have the steering fog lights on my 1993 Turbo. I'm not sure if they are the same.

The part number is 84317-17020 (84317). Costs around €128 new.
