PROBLEM SOLVED ....

I am Building a Track Day Car for hire ... Its a 99 2.0 NA Celica ...

Car will eventually be fitted with a Rollcage, Bucket Seats, Harnesses & Fire Extinguisher .. As soon as it makes some money ...

Car will somewhere around 180 BHP ... Its Front Wheel Drive so a good introduction to track ... Helmet will be supplied also ... Car will be dropped at the track and collected from the track ...

You will need to supply your own Petrol & Pay For your own Track Day ... Thats it ..

SO .... WHAT IF YOU CRASH AND WRECK THE CAR ... OR BREAK IT

I will shout and call you an idiot ... But that's about it ...

SO .... WHAT IF YOU DRIVE LIKE AN IDIOT ...

I will shout and call you an idiot ... But that's about it ...

SO .... WHAT IF YOU ARE A DANGER TO OTHER TRACK USERS

I will shout and call you an idiot ... Will give you a warning but if you keep it up Then I will kick you out of the car and tell you to go home ...

SO ... WHAT IF YOU NEED SOME INSTRUCTION

I will sit in for a few laps in the morning and give you some pointers and tell you some lines to follow ... we will time some laps in the afternoon

SO ... HOW MUCH

Car is € 150 ... Petrol tank can be filled on the way up but at your expense

SO ... CAN YOU SHARE THE COSTS WITH A FRIEND

I don't care as long as I get paid for the car

THIS OFFER IS ONLY FOR MR2.IE MEMBERS ...

I ONLY WANT PEOPLE THAT WILL RESPECT THE CAR A LITTLE ...

The car will be fully built in a few weeks time ..

SO WHO IS INTERESTED ??????

That's a good idea.

Some more questions.

What happens if the car breaks down half way through the day ?

Do you need insurance to track it, personal or motor ?

Hopefully the car wont break down ... Its a celica ... If we can repair it there then we repair it ...

No need for insurance ... Just full drivers licence
