

Cars & Coffee

Posted by Redmk1 - 2011/10/30 23:54

Cars & Coffee number ten, of 2011, Cherrywood Business and Tech. Park, will take place on Sunday morning, Novemebr 6th, meeting anytime from 10.30am onwards.

Take exit 16 from the M50, and follow the road to the complex, park up in the large car park opposite the Spar store on the immediate right upon entering the gate.

This venue so far has proven to be a great success, it is quiet on a Sunday morning, with minimal public traffic, and we have the permission and blessing of both the site security, and store owner.

Take care on the approach road to the complex, it is a three lane road, and very easy to break the limit(60km/h) but it is often policed with speed traps.

On leaving the parking area, please take it handy through the exit, we have no wish to upset the on site Park Management Team!

Look forward to seeing you all there, if you are a newbie, please don't be afraid to introduce yourself.

I also have just a few remaining Octane.ie window stickers, hit me up on the morning if you want one.
Steve

havne't been to one of these in ages, unfortunately due to the floods my two is off the road :(Don't think it's too major damage but the bodywork under the bonnet has peeled back and is jamming into the ground, and it has also pulled away under the wheel arch and is digging into the tyre :(

If anyone is interested in the mk1 i'll have it at the cars and coffee for viewing and you can also take it for a spin aswell ;) I have a half decent offer from a car dealer to buy it off me but when I say half decent I mean he would be making his slice by selling it for more than I am etc

P.s: has anyone noticed the serious lack of MK2's for sale on carzone, they are all mk3 bar "5" under the mr2 section?

Looks like a good turn out for tomorrow, enjoy it.

My MR2 is stranded on three wheels with half the brakes done, half a clutch master cylinder repair done, etc and then I dug up the driveway for my car port.

Great turnout today, spectacular weather which made it a huge event car wise, alot of cars without their roofs and t-bars, and 2 potential buyers for my MK1 and another potential on my mail when I got home!

Infamous, there is another pic of the Challenger here. She is a 67 RT 440 block. You can see the Camaro behind it. Almost 100% perfect replica of Bumblebee. He has the same wheel centres, gearshifter, steering wheel and even the air freshener from the movie.

Both of these beasties are very noisy indeed, love it!

My old two was there aswell, nice to see it again.

No worries, had them on the phone, just had to upload them to photobucket.

Im a huge fan of American muscle myself, the lads that own those are there regularly enough and are dead sound. They are more than happy to show and talk you around the cars. I was at the American car show in Kilbeggan for the 10th Anniversary of 9/11. Those lads were there plus a ton of other amazing machines inc a few big rigs which I have a particular interest in as I just finished building my working 1:14 scale model.
