

New FT1 (Supra) pics

Posted by Quandry - 2014/08/15 10:01

Wow! did you guys see this???

The F1 style cockpit design inside the car is interesting! it's kind of taking the Supra/MR2 cockpit feel and making it even more extreme..

Glass roof for the engine - I like it! :)

I think it looks good but come on Toyota - the real winner here will be a new MR2!!! :)

Semi sunglass hood? If you live in IE yeah no problem cause the sun doesn't shine but if you live somewhere warm won't it be an issue for the engine to overheat cause of that huge glass lense which will let the sun shine on that black engine cover? BTW great lookin car!

The new Honda NSX is pretty cool too.

It was on last Sunday's Top Gear and got a good review.

I saw one of the new Mustangs when I was driving about in Derry yesterday. It looked OK to me, but I'm not really into the American car scene.

Spotted yellow Mustang on M6 yesterday,,liked it but there was a plastic looking element to it..

Left him for dust anyway :P :P

As for the Supra = pure car porn :love:
