

spoiler suggestions?...

Posted by sills577 - 2009/12/07 19:36

hey, i have been looking through spoilers for a while now and was after a autopista for a while but just couldnt get my hands on one . . . and to be honest i think thats made me go off them a bit!

anyone have any suggestions for me? not too big not too small if you get the idea ;)

maybe something like this?...

TRD spoiler looks awesome I reckon. Only thing is that you need a widebody or some kind of kit to pull it off. Doesn't look that great with a standard 2.

MartyJ has a carbon Rev5 wing for sale on here. It's similar to the TRD but slightly lower profile and the carbon look is v.impressive. I would buy it but the colour would clash with SMG...
