

Apexi avc-r type R EBC F/S

Posted by st182r - 2014/07/19 20:38

Apexi electronic boost controller.
Full adjustable. self learning so doesnt need to be mapped.
Nice mod for any one with a turbo 2.
Comes with instructions and wiring diagram.
Still in car so could be seen working.
250 euro

Is that a crack under the PREV button or is paint coming off?
its not there in the first pic...
