Hi perry ahh no I'm running a rev 3 trc turbo engine not sure wat the bhp was on it but I think the motec m4 ecu had it up around 300 bhp.

All I want to do now is get it fixed and put into my own mr2 :) then when it good I'll b happy to do tweaking then. Just see wat damage is on mine first. Wat u planning on doing ?

Bump parts still available

Dan, your selling, put a price on it please.

Rule 5: You must post a price. Do not post up 'thinking of' or 'just gauging interest' threads. We don't want teasers here. If you post it, you're selling it and put a price.
