

1998 Toyota MR2 (Rev5) (BEAMS 3S-GE) For sale

Posted by RR87 - 2015/09/05 16:32

Hi everyone,

I decided to put my MR2 for sale after purchasing another car. With the new car, I don't see a reason to keep both and let's be honest motor tax and insurance rates in Ireland are not the cheapest in the EU to support car enthusiasts.

Here's the text from the advert in Donedeal:

First of all, I'd like to inform you that I am NOT in a hurry to sell this car and I will not reply to silly offers or texts.

Secondly, this is not the Euro-Spec model with 150-170HP; instead this is the Japanese model that makes 200HP with a normally aspirated engine (this engine BEAMS was only offered at the end of production 98-99 of this MR2 generation).

My asking price is now €4250 ONO. Reasonable offers will be considered

This car has NCT until end of March 2016 and Motor Tax paid until end of May 2016.

A surprise piece that costs €400-500 will be given to the future owner at no extra cost

This car is in excellent running condition.

Basic features:

- Car is fitted with an alarm
- CD/MP3 Player with USB port comes with car as well.
- Driver and Passenger's airbag in this model (unlike many MR2s offered)
- Current mileage is: 151955 KM (Kilometres NOT miles)
- Standard car (rare to see nowadays) except for the wheels (MOMO revenge) shown in the pictures

Here are some of the recent maintenance done on this car (with receipt to prove):

1. Timing Belt
2. Clutch
3. Crankshaft Seal replacement
4. Oil and Oil Filter Change

This car is located in Dublin and I will not conduct test drives unless you prove you're a \$erious buyer.

Time to contact me:

- Week days: After 5pm
- Weekend: Anytime (If I don't reply, leave a brief message with your contact details and I will contact

you as soon as possible)

Once again, I'm not desperate to sell this car, therefore I will NOT reply to silly offers or texts

My asking price is now €4250 ONO. Reasonable offers will be considered

Thank you for reading this thoroughly.

I would LOVE this and would seriously consider buying it, except for the fact that I'm finding it impossible to get insurance. I'm 26 years old (license a couple years with 1 years named, one years no claims) and can't get a quote on it.

If the car is available in 10000000 years when I can get insurance, I'll buy it. ^^

(Cheapest quote is 2000+, if I could get to 1400 or below...)

I know exactly what you mean. I had to "suffer" and wait for Irish insurance companies to be nice enough and provide me with a quote...

Welcome Ribeiro, I remember seeing Raf's MR2 in the past and it was very nice. The Beams is quite an impressive powerplant too!
