

Cost of a Good Mk2??

Posted by KnightRider - 2016/05/12 13:28

Hi, I have a mk1 at the moment and I'm toying with the idea of changing it for a mk2. Don't get me wrong I love the mk1 and would have both if I had the storage space but I keep being drawn to a Mk2 every time I see one on the road. I'm just wondering in everyone's experience how much I would have to spend on something decent. I'd be looking at getting as old a year as possible.

=====

Well did you get a mk2 or hold on to your mk1 in the end?

Still have the Mk1. Moving house this year and the plan is to build a decent size garage. Also have a mk2 lined up too.
