I'm only seeing your post now dude, sorry for the late reply. I don't have a steering rack, I only really have the parts pictured above.

I've 2 Cats for sale a gutted one which would make a good Decat.

I also have a proper working condition Cat for sale. Off a Jap turbo model.

The induction kit is still for sale too.

I'm open to offers on all parts or may swap for car related stuff, oil, parts, etc..
