Hi all,

Haven't been on since selling my love :(

Need to move on the bits I still had in storage:

Smoked Indicators:

Border style front bumper:

Electric folding mirrors (needs looms and maybe more)

There are also some 5x100 wheels and an electric exhaust cutout in my other ads!

If people can email me on stephenhartnett87 (at) gmail . com, as I'm never on here anymore

Hope everyone is prepping for summer and I'll be sure to wave from a black GTI or a silver twincroll Legacy wagon if I see any of you!
