

## Insurance options - 2019

Posted by Juliuswws - 2019/05/27 13:37

---

Hi Guys,

Got my quote from 123.ie.

It's €831 for this year, keeps going up every year. I'm getting fed up.

Would you have any suggestions where should I try?

- I'm 36
- Car is 1995
- 6+ years no claim
- Full EU licence
- No other policy/car on my name

Thanks in advance

=====

Was that quote for comprehensive?

Have you tried to insure it as a classic car? Not sure if you need another vehicle as a main car though.

This price is for third party, fire and theft only...

I didn't try yet, but I would imagine you should have another car.

Where would you try? Or just google and keep calling them?

Stuff like adding your Mother, Partner, etc as named driver will bring down the policy normally assuming theyve clean full licence, etc

I just renewed mine with 123 and if you ring them up they'll usually match the previous years policy, its worked for me the past few years

Renewal was €642 this year but I rang them up and Im paying €578 full comp with full NCB protection-35,M, 10+ Years NCB/Full DL

My Partner is on it for many years with full 10+ year licence.

My Hungarian (EU) licence shouldn't be a problem either as I asked them last year if changing it to Irish would it change the rate. They checked and it would have changed my rate by about €50, but to the wrong direction...

So you recon just call them and ask for the same price as last year?

Thanks

Yeah just ask if they can do any better....at the end of the day they can only say no

If your partners with 123 as well use that as leverage
